

# State of the Arkansas Storm Water Program

Based on Information Provided by

Kimberly A. Fuller

Storm Water Runoff Team Leader

Arkansas Department of Environmental Quality

Ph: (501) 682-0621

# ● Phase I Medium/Large MS4s

- ✖ The state of Arkansas currently has one municipality that is designated as a medium MS4 (Little Rock, AR).
- ✖ Little Rock currently has an individual NPDES permit to cover its storm water drainage system.
- ✖ The Department is currently working on renewing the permit.

## Phase II Small MS4s

- ✱ Working on drafting a general permit to cover all designated small MS4s in the state - currently going through in-house review.
- ✱ Once approved by the Department, the permit will be sent to Region VI for review.
- ✱ The Department hopes to have a final permit issued by early fall.

# Phase I and II Construction Sites

- ✦ The existing general permit which covers construction sites that are 5 acres and greater is set to expire on June 30, 2003.
- ✦ The Department has drafted a general permit to cover all sizes of construction sites (1 acre and greater) in the state. (currently at Region VI going through the review process)
- ✦ The Department is hoping to have the final permit issued by September 1st.

# Phase I Industrial Activities

- ✧ The existing general permit which covers industrial facilities is set to expire on September 30, 2003.
- ✧ The Department is currently working on drafting a renewal permit to replace the expiring general permit.
